American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1857.)

78 State Street, Opposite Kilby Street Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made in American or Foreign works, to determine the validity or utility of Patents or Inventions; and Legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the Subscriber, in the regular practice of his profession, has had the principal management of fifty-seven applications, every one of which was decided in his favor by the Commissioner of Patents.

R. H. EDDY.

Testimonials.

"I regard R. H. Eddy as one of the most capable and successful practitioners, with whom I have had official intercourse. CHARLES MASON,

Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such uninterrupted success of great talent and ability on the part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at reasonable charges. JOHN TAGGART.

COOKING BY STEAM!

H. J. DUNKLEE'S PATENT STEAMER Complete Set, A Great Economizer in Cooking. A Meal of Six or Ten Persons can be cooked over one boiler of a Stove or Range for half the fuel than by the other process.

Puddings, Cakes, Bread, cooked at the same time, over Meats, Poultry, Potatoes, Cabbage, Turnips, Beets, and Corn, without particles of one of the flavors from vegetables.

This apparatus combines Patent Steam Cooker, Patent Bread Steamer, and Self-Basting Roaster, and is the most complete and perfect Steam Cooking Apparatus ever invented.

The Steamer is placed on the top of the boiler, thereby economizing fuel, and all the steam is used in cooking. A Steam Boiler Set, with the Steamer, of a Stove or Range, can be purchased for the small sum of $50 more. An examination of the apparatus will convince any one of its superiority over all others. NEWPORT DAILY NEWS.

THURSDAY, March 19, 1868.

We are occasionally in debted to the *Providence Journal* for an item of local news; but that does not make it right to misrepresent the grounds of the President's Impeachment, and give aid and comfort to the Democratic party.

Literary Notices.

Every Afternoon, the first number of which was issued on the 17th inst., comes to us in the fashionable quarto form of the day, printed on good paper with clear type, broad columns and a convenient size for the reader. It opens with a few words of salutation uttered in a friendly, chatty way and begins its career very hopefully. After the editor's introduction, he dips at once into the current topics of the day and serves up the dish to a multitude of readers, as we suppose, who will be well pleased with the bill of fare he sets before them. Our readers will take an interest in the success of this new venture of Mr. Young, as two or three gentlemen who have had a long connection with the *News* have a hand in giving Every Afternoon to the public. Its price is five cents per number. William Young is editor and proprietor.

Littell's Living Age, No. 1242, contains works by George McDonald, Lady Macbeth, Tornadoes, All for Greed, Gladstone on Sir Walter Scott, Sir David Brewster on Luther articles.

The Public Spirit, published by LeGrand Benedict, New York, commences a new volume with the April number, and appears in a new and becoming dress, with a vermillion color, making it one of the most attractive, as it has long been one of the best, of the cheap magazines. The contents of the present number are: Mating and Check mating; On the Divan, a song of the Persian Turks, by R. H. Stoddard; An Evening in Plymouth Church; Recollections of twenty campaigns, by Richard T. Colburn; Marion, or Regaining a Husband; Impeaching a President; The Maiden from Abroad; The Battle of Lutzen; Stage Spectacles, by Richard Ripley; My Uncle, by Elizabeth Stoddard; About Trying Again; April; Development of American Fine Arts; The Sanctum.

Attempt at Murder and Robbery.

A bold attempt at murder and a successful robbery were perpetrated in Williamsburg, N. Y., on Monday afternoon last, by three desperadoes, who succeeded in making their escape, although seen by numerous persons. It seems that an old German apothecary named Oligschlager, doing a small business near the Junction of Flushing avenue and Broadway, has been looked upon for a long time by his neighbors as a miser who possessed untold treasure, for the reason that he lived alone in a miserly manner. Acting upon this idea, some of those who knew the old man and his habits, a few weeks ago robbed his money drawer of the sum of $100 and escaped detection. Since that time Oligschlager has been very careful of his money and acted more cautiously with his customers than was his wont. He seemed to distrust all who had any business transactions with him, and frequently refused to make change for his customers, believing that they intended to rob him. His conduct in this respect only excited the merriment of his friends; but their merriment was turned into profound sorrow Monday afternoon, when an attempt to murder him by those he feared was made known. At about 1 o'clock three fellows without disguise entered his store, and while one of them engaged his attention another struck him repeatedly upon the head with a slungshot, while the third rifled the till of the store, and the trio then fled, leaving their victim weltering in his blood and quite insensible. A number of boys saw the atrocious deed and pursued the ruffians for a long distance along Flushing avenue; but they all escaped. The police of the Forty-sixth precinct, hearing of the outrage, repaired to the scene and caused Oligschlager to be removed to the residence of his friends, where he now lies in a dangerous condition.

A Diabolical Incendiary Plot.

An atrocious attempt to destroy a dwelling house by means of gunpowder was made in Albany, N. Y. last Saturday evening. Under the sill of the house the incendiaries placed a soldier's canteen filled with gunpowder, and around and over it they arranged a quantity of rags and paper, which they doubtless expected would be ignited by the explosion and ensure the burning of the building in case the powder failed to destroy it. From this canteen they laid a train of powder, and when everything was ready the train was fired, and a terrible explosion ensued, the report of which was heard several blocks, and which caused great consternation among the inmates of the dwelling. A small boy was thrown off the shelves and window lights were broken. No great damage was done to the building, however, and the fire among the rags and paper was easily extinguished. No clue to the perpetrators of the nefarious act could be found, except that two men were seen to leave the place a few minutes before the explosion.

A Valuable Music Box.

A few days since a music box, which had been sent to Europe to be repaired, was entered at the Boston Custom House. It was imported some years since at a cost of $1200. The case, in shape like a small music box, is of gold, enamelled; on the lid is inserted an oval strip of jewelchain; having wound the works and pressed a spring, this oval flies up, a tiny nest is disclosed, and from it leaps a beautiful bird, which, perching on a rest, begins to sing like a canary, opening its bill and fluttering its wings and body in the most life-like manner, when its song is done it hops back to its nest and the oval closes.

Lecture by Rev. Mr. O'Connor.

—On the evening of St. Patrick's day, the assistant Pastor of St. Mary's Church delivered a lecture on Ireland at the hall of St. Mary's school. The lecture was introduced in a few remarks by Mr. James McKeon, and was greeted with enthusiastic applause. He introduced his address with allusions to the significance of the celebration of the Saint's day by the soldiers and civilians united, which could not have failed to arouse the pride and joy of Irishmen, and thoughts of the oppression to which their native land has been subjected for three centuries. He then proceeded to say that it was difficult to point out in the history of the Church one more entitled to veneration and gratitude than the great and glorious apostle in whose honor they were then assembled.

The constancy of the Irish people in adhering to the faith of Patrick under every species of trial and suffering we have reason to be proud of. The Penal code enacted to eradicate that faith from Ireland notwithstanding the severity of its provisions and its severe execution was not sufficient to draw away our fathers from the faith in which they clung. They took away their property, the whole Island was confiscated they stripped the church of all its possessions, they destroyed her institutions of learning, and reduced the people to the necessity of celebrating the divine mysteries with no other covering but the canopy of Heaven, but yet the Irish people clung with tender devotion to their and their fathers' faith, and when the day of reaction had dawned and comparative prosperity and peace visited the land, in the number of churches and institutions of learning which sprang into being they gave clear proof of the power and strength that had existed all the while.

The English government, no longer able to destroy the faith by force, endeavored by sly enactments to lay its hand upon that Church in which the faith of the nation was enshrined. But here too, they were again baffled. Emancipation was offered on condition that the Government might obtain some influence in the selection of the Catholic Bishops, but much as they loved their civil liberty, they loved their faith more, and preferred the shackles still to remain rather than any bonds should be placed upon the freedom of the Church, and for more than twenty years emancipation thus offered was rejected by those who spoke in the name of the people of Ireland, until at last obtained by the illustrious O'Connell.—And so it was with education. Thousands flocked to the schools of Ireland from every part of Europe. The most illustrious universities of Europe were founded by Irishmen. Had it not been for this great love of learning, which like their faith, their oppressors could not crush out, Ireland to-day would have been one of the most degraded countries upon the face of the earth. The English Government at last endeavored to take it into its own hands, and to administer something that would appear to satisfy this natural craving, uniting with it something else that would destroy their faith. Schools were built, and educational books so written, as to sap the foundation of Faith from the heart and leave it wandering between infidelity and error. Hence the whole nation recoiled, when they found their religion was thus endangered. He continued. No matter how distant from their native homes Irishmen might be, no matter how endearing the objects by which they were surrounded, no matter in what state kind Providence might have cast their lot, they turned their eyes, even though they might be in tears, towards their native home, and wished the devout blessings of Heaven, upon those remaining in that lovely isle, and ardently look forward to that day, when they should shake off the shackles of the oppressive dynasty that has kept them in subjection now for ages, and wrested from her oppressed children the liberties, aye, the very means of subsistence, and culminated in the death by starvation of thousands during 1848.

But Ireland still remains stricken to be raised up a free, proud, and independent nation, in God's own good time, and (said the lecturer) let us so act in every position of life as to exhibit to the world that we are the children of Saint Patrick. He need not admonish them to be faithful to the country in which they lived. There was no need of it, our own History and the History of America taught that from the very moment the flat of Independence went forth from the old Hall down to the present moment. Irishmen have been found willing and ready by their arms and by their means to preserve the flag intact and to transmit to futurity the institutions under which they live.

We must educate ourselves and in order to aid and obtain this education, there are certain privileges to be obtained, amongst which stand the right of having a choice in the election of those who make our laws. In all the States of the Union except Rhode Island, the right of franchise is limited only to certain conditions and restrictions which are within the power of most of our people. At present in this State we have no voice in councils of those who legislate for us. We are compelled to receive and obey all the laws made for our government. The law which compels a naturalized citizen to have $134 of real estate in order to be entitled to vote until probably shortly he repeated either by the adoption of the additions to the Constitution or by State Legislation. It would be more prudent to invest money in property and thereby have an interest in the country and the right of franchise.

The Lecture was frequently greeted with applause and at the conclusion the whole audience rose *en masse* and loudly cheered him.

A young man was arrested in Boston on Tuesday, upon a charge of stealing, who gave his name as Edward Carey, of New London: but the Boston *Journal* is inclined to think that his name is Edward C. Tew, and that he belongs in Rhode Island. The prisoner tried to commit suicide after his arrest, but failed.

During the past fortnight forty new churches have been dedicated and twenty-seven organized in the United States. Fourteen of the new edifices have been erected by Methodist societies.

It is estimated that between 20,000 and 30,000 gallons of whiskey are illicitly manufactured daily in the city of New York, and it is said some startling disclosures will shortly be made to the Treasury Department in relation to the matter.

Supreme Court.—The following items of business were transacted before this Court yesterday, in addition to what we have previously reported:

The Jury in the case State against Nathaniel A. B. Hussey for stabbing Thomas Preece came in with a verdict of guilty of assault as laid in the indictment, but not guilty of malicious intent or forethought as charged. Hussey was sentenced to the State Prison for one year.

The Divorce Docket was disposed of as follows:

Sally Fay against Jerome Fay,—granted.

Jane M. Weeden against Henry H. Weeden,—continued with order of notice to defendant.

Mary A. Mason against Henry C. Mason—granted.

Maria T. Tew against Latham T. Tew,—granted.

Mary Chambers against Thomas Chambers,—granted.

Sarah B. Almy against Pardon A. Almy—granted.

The petition of Michael Sullivan for naturalization was heard and granted and the oath administered.

After hearing some motions and other matters the Court, at 4 o'clock P. M. adjourned to meet again on the second Monday in June next, (8th) at 10 o'clock, A. M., to hold a continued session of the present Term.

Personal.—We are pleased to learn that his honor Mayor Parker accepts the appointment of State Treasurer for the remainder of the present year, and also the nomination for the year to come. As he will without doubt, be elected, our citizens will be obliged to look about for a candidate for the mayoralty which will then become vacant.

The Bay Queen.—As the steamer city of Newport will be hauled off for repairs next week, the Bay Queen, Capt. Allen will be temporarily put on the route in her place. It is expected that the change will take place on Monday.

The Book Auction.—Our readers will please notice in another column, the announcement of the closing out of the lot of books at Stanhope's. As this is the last week in which the sales will continue those of our citizens that desire to purchase will please bear this in remembrance.

Wide of the Mark.—The report that our State Treasury is without funds which has found place in one or two newspapers is wholly without foundation. There is, in fact, a much larger balance than usual on hand.

Insurance Rates.—A new tariff for this city has been prepared and will be printed in a few days. The rates are considerably less than those fixed for our city a short time since by a committee from the National Board, though of course much higher than the prices charged in former years. The present rates have been established by the Rhode Island Board of Underwriters.

Tiverton.

G. W. C. T. P. L. Berry, assisted by several persons from Union and Island lodges, instituted Pocasset Lodge, No 31, I. O. of G. T. on Monday evening last at Tiverton Four Corners. The new lodge numbered eighteen members from among the most esteemed citizens, and meets on Monday evening. The following named officers were installed:

W. C. T.—Preserved Tripp.
W. V. T.—Miss. S. Manchester.
W. S.—A. T. Whitman.
F. S.—Wm. H. Manchester.
T.—Wm. Cory.
C.—Rev. H. L. Whitman.
M.—P. Almy.
I. G. Miss L. Cory.
O. G.—H. D. Wilcox.
A. S. Miss Fannie Potter.
A. M.—Miss. C. A. Slocum.
R. S.—Miss L. T. Seabury.
L. S.—Mrs M. C. Whitman.
P. W. C. T. and L. D.—Edward Gray.

Havana and Mexico.—An Havana special says that several Spanish officers are implicated in the late conspiracy, and it is believed that Santa Anna and Marquez originated it in order to proclaim Ortega President. A plot to blockade Vera Cruz has been discovered and it was probable Juarez would call on the Captain General of Cuba to enforce a more rigid neutrality. The Mexican Congress has appropriated $55,000 more to redeem the Convention and Internal bonds.

Owing to the Bishop of Havana interfering with a performance by Bistori, a difference has sprung up between the Captain General and the Bishop, which has resulted in the General's ordering the Bishop to leave Havana.

One of the most curious hallucinations in an insane person on record is related by Dr. Skaye of an asylum in Edinburgh. The person of whom it is told asserted that he was more than twenty thousand years of age, described the scenes during the geological periods of the earth, declared he knew Noah well, and that he was a nice lad in early life, but afterwards fell into dissipated habits (!). For the last three or four thousand years he had been Augustus J. Caesar, and this was his usual signature.

More men are out of employment in New Albany, Indiana, at the present than at any time since 1861, when the breaking out of the rebellion so prostrated business. Not a single contract has yet been made by the ship carpenters for building steamboats the coming season.

There has been a state convention of Presbyterian churches in session at Chicago, whose main object was to unite more closely the Presbyterian organizations.

Female suffrage has received its quietus in the Wisconsin Legislature.

General Assembly.

JANUARY SESSION—AT PROVIDENCE

Tuesday, March 16.

The Senate met at ten and a half o'clock. His Honor the Lieutenant Governor in the chair.

The chair announced the appointment of Mr. Kenyon of Coventry, the committee on the part of the Senate, on the affairs of the Quartermaster General's Office.

Mr. Hazard, for the committee on education, reported back the petition of School Committees for the re-establishment of the Normal School, with a resolution from the House, referred the matter to a joint special committee, to report at the May session, which was concurred in, the committee on the part of the Senate to consist of two members.

Also an act in relation to the discipline and management of the State Prison, from the House, which was passed in concurrence. The act provides for a deduction of the term of imprisonment of such convicts as maintain a good record.

The resolution relative to the State deposits, being the order of the day, was taken up, a concurrence with the House having been recommended by the committee on finance. The matter was briefly discussed by Messrs. Hazard, Grosvenor, Currey, Anthony and Smith. The resolution was then passed in concurrence.

A message was received from the House, communicating a resolution repealing the resolution of adjournment, which created considerable discussion.

Mr. Grosvenor said he had arranged his business for the adjournment on Friday, and thought if the committee would work the business might be advanced so as to adjourn on Friday.

Mr. Currey moved that the resolution be tabled, to be made the order of the day Friday, at 11 o'clock. The motion did not prevail.

Mr. Smith moved that the Senate concur, which prevailed.

Resolution from the House instructing the committee on fisheries to report at the January session a revision and consolidation of the statutes relative to the fisheries, was passed in concurrence.

Concurred with the House in the amendment to the resolution relative to the continuance of the petition A. & W. Sprague and others relative to the Narragansett Pier Railroad.

House of Representatives.

The House met at 10 1-2 o'clock, Mr. Speaker Van Zandt in the chair.

The resolution introduced yesterday, by Mr. Darling of Pawtucket, repealing the resolution of adjournment on Friday next, was taken from the table. After some discussion the resolution was adopted.

Mr. Durfee of Tiverton, offered the following resolution, which was adopted:

Resolved, the Senate concurring herein, That His Excellency the Governor be and he is hereby authorized to appoint three commissioners to investigate the practicability of stocking the waters of the State with salmon and other migrating fish, if in their opinion practicable, to consider the best means of accomplishing the same, and to report to the General Assembly at the next session, provided that nothing herein contained shall be understood to authorize any expense of the said commissioners.

Mr. Gardiner, from the committee on corporations, reported favorably on the petition of William H. Hall and others to incorporate the Trio Manufacturing Company. On the recommendation of the committee the House passed the bill in concurrence without amendment.

Also the petition of A & W. Sprague and others for charter of Narragansett Pier Railroad. On recommendation of the committee the House concurred in the adoption of the order of notice with an amendment.

Mr. Worden called from the table the special order of the day, "An act to ascertain the ratable property of the State, and obtain a uniform valuation thereof," on which a protracted debate ensued.

Died.

In this city, 15th inst., Miss Sarah R., daughter of the late William Lawton, of Portsmouth, R. I., in the 31st year of her age.

Funeral tomorrow (Friday) from the residence of the Misses Hall, No. 13 Clarke street. Services at 11 o'clock, A. M. Relatives and friends are respectfully invited to attend.

At Seville, N. I., 13th inst., after a brief illness, Rt. Thomas Herbert, youngest son of the late Nathan Bennett, Esq., in the 37th year of his age.

The funeral will take place from his late residence No. 218 Thames street, (to-morrow) Friday afternoon, Services at 3 o'clock, which relatives and friends are respectfully invited to attend without further invitation.

Alpine Bitters.

THE ALPINE BITTERS, imported exclusively from Switzerland, is made from Roots and Herbs, harmless in themselves, but marvelous in their strengthening properties. Their restorative qualities are unrivalled, and are especially efficacious in all cases of Female Debility, arising from any cause whatsoever; also for Dyspepsia, Indigestion, Headache, Nervousness, Loss of Appetite, and as a preventive or cure of Chills and Fever.

The ALPINE BITTERS have a soothing and restoring influence upon the system, especially upon the digestive organs, and is highly recommended to ladies and even children in delicate health, and to all who are averse to taking wine, poisonous whiskeys and other stimulants.

The continually increasing demand for this universal popular Bitters has induced the undersigned to make such arrangements abroad as will enable them constantly to supply all orders with which they may hereafter be favored.

Watches for the Million

ARNANDALE & CO'S GREAT WATCH CLUB.

Everybody needs a good watch, and wishes to get it at the Lowest possible price; a horde of swindlers knowing this have contrived various ingenious devices to get people's money, and then either fail to send a watch, or send one that is worthless as a timekeeper. ARNANDALE & CO. have now perfected arrangements by which, for the small sum of $10, a good and reliable watch may be CERTAINLY obtained. They have formed a GREAT WATCH CLUB on the following plan. Certificates containing the numbers of all the watches named in our wholesale list (which a sent to all applicants) are mixed up, enclosed in envelopes, and sold for 25 cents each. Every certificate is warranted to be for a watch, and as will be seen on reference to the list, none are of less value than Ten Dollars, whilst some are worth $300. We undertake to send any watch drawn whatever may be its value for $10, and in order that every one may absolutely depend upon getting a first class timekeeper, we guarantee that every purchaser of One Dollar's worth of certificates shall receive, at least one for watch No. 583 on our wholesale list, rent post free, which is a first class patent lever, a handsome and reliable watch, having silver hunting case, and usually sold for $15. You will certainly get such a watch; and, besides, you may get a GOLD Chronometer worth $200. We send the certificates as follows: One for 25 cents; Three for 50 cents; Six for $1; and Twenty for $3. To those sending $1, we will send a Lord's purse check gratis. To those sending $3 we will send a Gold Chain warranted not to tarnish in 20 years. Parties getting up larger clubs will receive liberal presents, particulars of which may be learned on application. As it is our intention to do a strictly honorable business and to give our great store from luckily to buy new first-class watches, if desired, will—if money is sent for the Express parcel, to collect on delivery. If we are desired to forward watches by mail, the money must be sent to us by Bank Draft or Post Office Order, and it will then be at our risk. We will then register the package at our post office, and if lost will replace it free of charge.—If any watch sent is not approved, it may be returned and the money will be refunded. The reputation of our firm, which has been established for five years, and is well known in every part of the country, we trust will be deemed a sufficient guarantee that we will faithfully perform all we promise to do.

HANGS'S AMERICAN CHROMOS are for sale of Oil and Water Color Paintings by the best masters. They are artistic copies and, in most cases, fully equal to the originals. An eminent critic says of our Chromos of Taft's Groups:—

"Mr. Louis Prang, of Boston, of whose efforts to disseminate through the country faithful copies of our gold flowers, butterflies, moths and birds, in such pretty forms, and so cheaply, as to drive out of the market all inferior publications, has just issued a chromo-lithograph in exact of one of Mr. A. F. Tait's clever little pictures. The chromo-lithograph is a perfect fac-simile of the original painting, reproducing not only the tone-marks, but the very lines of the canvas, in a way that surprises by its ingenuity. Mr. Prang tries with all his might to make his imitations absolutely deceptive, not for the purpose of deceiving, but in order to put faithful copies, 'as good as the originals' within the reach of small purses.—He brings to the work knowledge, business energy, and enthusiasm, and what is more, a generous spirit toward art and artists, which is very pleasant to meet with. He has our cordial thanks for what he has already done, and we trust that he will do his best to educate the class he works for in the love of what is true as well as beautiful."

TELEGRAMS.

GALE AT THE WEST.—DAMAGE TO PROPERTY.

CINCINNATI, March 17. The storm hereabouts was very destructive. Several buildings were blown down. A train of cars was blown from the track, severely injuring John Egan, a conductor, and a number of the passengers. At California, several houses were unroofed, and at Elizabethtown the Methodist church and a brick mill were destroyed. Persons arriving from all sections report the damage throughout the country as enormous.

CHICAGO, March 17. Yesterday afternoon the weather was uncomfortably warm, the thermometer rising to 72 in the shade. During the night a furious rain storm burst forth, accompanied by the most severe gale that has been known here for months. The damage caused here by the gale was considerable, and several buildings in different portions of the city were blown down. The machine shop of the Chicago and Rock Island Railroad, located near the junction suffered severely. A brick blacksmith's shop, 200 feet long, was entirely demolished. The machine shop was also damaged, several hundred feet of the wall being blown down. The station, engine house and other buildings were also considerably damaged. It is reported that forty other buildings in the vicinity, were more or less damaged by the gale.

It is impossible to estimate the loss with any degree of certainty. That of the Chicago and Rock Island Railroad cannot be less than $100,000. Some damage was done to the railroads centering here, but nothing that will cause serious trouble.

A frame dwelling at the intersection of Willow and Dayton streets, occupied by Adam Winter, was blown down. Mr. Winter was seriously injured, and his wife was instantly killed.

LAND SLIDES

PITTSBURG, March 17. A land slide occurred on the Panhandle road this morning, covering the road for a considerable distance, and interfering materially with passenger trains leaving the city. All must at the same time another slide occurred at Evanson's Mill on the line of the Pittsburg and Connellsville road, doing much damage to property in that locality.

—o—

THE FLOOD ON THE HUDSON.

ALBANY, March 18—Noon. The water is receding slowly and the river is entirely free from ice at this point. No trains are running over the Hudson River road or over the Central road. The tracks of the Central are covered with ice to a depth of four to six feet between Spinkers and Palatine.

Washington Evening News.

—o—

Washington specials say the President's counsel, all of whom are now here, upon filing an answer will make another demand for delay, and press it with all the force the counsel can command.

From the fact that several reductions made in the navy estimates by the House have not been agreed to by the Senate Naval Committee, the Ways and Means Committee will have to increase its estimates of the amount to be raised by internal taxation.

The President will preserve profound silence as to the line of defence he may take on the impeachment trial, by the advice of his counsel.

The Impeachment Managers are informed of the tactics that are to be resorted to by President Johnson's legal advisers. It is hinted that the President will ask for fifteen days' further extension of time Monday. This the Managers will oppose.

The bill to admit Alabama will remain with the Reconstruction Committee for weeks if not months.

The Senate Foreign Affairs Committee considered the Danish treaty and the treaty for the purchase of the Bay of Samana. They discussed these matters up to the time of adjournment but no vote was reached on either of them. The Secretary of State is very anxious that some definite action should be taken on these measures. The governments interested in these treaties have expressed an earnest desire that they should be informed of the intention of the United States government as soon as possible. Mr. Sumner will endeavor to get them disposed of at the next meeting. It is expected that the committee will report on both treaties adversely.

The Army appropriation bill was considered and completed by the Senate appropriation Committee. The committee found, on consultation with the General of the army and the Secretary of War, that the estimates could not be curtailed.

The President had a long conference this morning in the library of the White House with Messrs. Stanbery, Black and Evarts. It is said that Mr. Nelson has withdrawn from the case and that Mr. Grosbeck of Cincinnati will be submitted.

Hair-Dressing,

FOR SALE BY ALL

DRUGGISTS,

Price, One Dollar.

☞ Scientific research cannot furnish an article for the Toilet superior to this.

State Assayer's Office, 59 State street, Boston, October 10th, 1867.

Dr. George W. Babcock: Sir—I have analyzed and tested the Hair Dressing received from you, with the following results:

It is free from silver, lead, sulphur, acids, alkalies or injurious substances of any kind.

It is skillfully prepared, containing valuable medicinal properties, which are known to stimulate the growth of the hair; and I can recommend it as a superior preparation, and one that may be used with entire safety.

Each bottle contains twelve fluid ounces. Respectfully, (Signed) S. DANA HAYES,
State Assayer of Massachusetts.

It stimulates the growth of the hair, keeps the head cool, moist and clean, does not soil the dress or the skin, and its effect upon the appearance of the hair is everything that can be desired.

It not only promotes, but preserves a luxuriant, handsome growth of hair in its natural color through life.

SECURE A POLICY

—IN THE—

NORTH AMERICA LIFE INS. CO.,

I. **Because it gives more Liberal Policies, than any other Company.** They are all nonforfeiting and incontestible. It issues Officers of the Army and Navy, in time of peace, at the usual rates, with no increase of risk. It makes no extra charge on change of occupation, nor for TRAVEL or RESIDENCE, at any season of the year, in the United States or Europe.

NEARLY A WORLD-WIDE POLICY.

It allows thirty days grace, on renewal payments and grants *weekly compensation* to those injured by public travel.

II. It is Most Secure.

It makes special deposits in the Insurance Department of the State of New York, for which the State guarantees the payment of its Policies, in case the Company does not at any time fail to meet its obligation. No other Company gives the deposit with security, or any thing equivalent thereto. **That is Best which is Most Secure.**

III. **It is most economical.** Its ratio of claims and expenses, last year, was less than that of any other Company in the United States, which had been in operation a full year. It is leading in the hands of the Policy Holders the largest proportional sum for dividends.

THE MODEL COOK!

Airtight Stove with Two Ovens

Surpasses all others in

Economy, Durability, Perfection of Finish, Capacity, Beauty of Design and Convenience.

Can be used with Water Pipes attached to Reservoirs, or with moveable Reservoirs, Hot

Ventilated Roasting Oven,

Which can be used separately or in connection with the BAKING OVEN, by removing a single plate, thereby giving one of the LARGEST OVENS ever constructed.

We respectfully invite those who are not satisfied with their present arrangements for COOKING, to make careful examination of this STOVE, honestly believing that it combines the elements of simplicity, utility, and economy, more perfectly than any apparatus heretofore introduced. For sale by

BROWN, GODDARD & BARLOW,

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful house-wife; the perfect control which can be kept over the fire, and the cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top, and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Sole agent in Newport,

Oxygenized Air,

A CURE FOR

CATARRH

AND DISEASES OF THE THROAT AND LUNGS,

Applied by

DR. C. L. BLOOD,

No. 9 Montgomery Place,

BOSTON, MASS.

Why entertain this loathsome disease when relief can be obtained? We meet these every day who are suffering from Catarrh to such an extent, that the Air Passages in the head are in a partly decomposed condition,—the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.

Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is invariably caused by humoral or inflammatory blood, by which the mucous membrane is made sore or inflamed, producing a copious effusion of viscid matter. If it be produced by Scrofula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the Bronchial into the air vesicles, and such is the excoriating, or scalding property of the matter, its contact with the delicate linings of the air cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.

Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation.—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this way manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from these diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a description of these diseases.

Out of the many thousands of testimonials received we publish the following:

DR. C. L. BLOOD,—

DEAR SIR:—I desire to give you my testimony in regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and Consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon our suffering race, and hope the day is not far distant when every intelligent physician will adopt your system in the treatment of all forms of chronic affections.

Fraternally yours,
I. M. LEE, M. D.,
No. 139 Westminster Street, Providence.

DR. C. L. BLOOD,—

MY DEAR SIR:—I have tested your remedy, "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases, that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.

Respectfully yours,
REV. E. COMLESSON,
Plymouth, Mass.

No. 3, 3d STREET SQUARE,

PROVIDENCE, February 15, 1868.

THIS Company hereby gives notice that they have this day appointed HENRY N. WARD, Esq., their Agent for Newport and vicinity. This Company offers superior advantages to parties desiring insurance on Dwellings or Household Furniture, as the entire business is done on fixed strictly to that line of risks. The Company adopted this system January 1st, 1867, and have now a large percentage of the premiums on hand, giving promise of a large return in dividends at the expiration of the policies. Parties insuring will find for their interest to call on our Agent at No. 134½ Thames street, Newport, R. I., and ascertain for themselves the great advantages offered by this Company.

PRICE ADVANCED---PAR & INTEREST

THE

Central Pacific Railroad

THE WEST AND PRINCIPAL PORTION OF THE

National Trunk Line Across the Continent

Is being rapidly carried forward by an unprecedented working force, and it is reasonably certain that the CONTINUOUS OVERLAND RAILROAD CONNECTION FROM NEW YORK TO SAN FRANCISCO WILL BE MADE IN 1870.

The United States Government furnishes, upon a subordinate and contingent lien, half the means for constructing the Main Stem Line; and besides an absolute grant of 12,800 acres of valuable public Lands per mile, the Central Pacific Railroad Company have received from California sources, donations and concessions worth more than $3,000,000. The available resources of this Company are therefore ample for the purpose, amounting to $27,000,000 on the first 736 miles of the Line, including Loans secured by a First Mortgage upon the whole property, to the same amount only as the U. S. Subsidy Bonds.

The results already attained, although under comparatively unfavorable circumstances, afford substantial ground for believing the CENTRAL PACIFIC to be the

Most Favored, Productive, and Valuable Railroad Enterprise in the Country.

In consequence of the large and rapidly increasing demand, the price of these Bonds has been advanced, and the Company are now offering for sale, a limited amount of their

First Mortgage Six Per Cent. Bonds,

Principal and Interest Payable in Gold Coin,

In sums of $1,000 each, at par and accrued interest from January 1st, in currency.

These Bonds, it is believed, possess the elements of *safety, reliability and profit*, in a greater degree, than any other class of Corporate Securities now offered, and are therefore very desirable for citizens by investments of surplus capital.

Investors will bear in mind the following advantages:

I. They are the first mortgage on one of the most valuable and productive lines of railroad in the world.

II. The actual earnings from local business in 1867 were more than four times the annual interest engagements.

III. The hard part of the work is now done, and the prospects of rapid completion are favorable.

IV. The Company have liberal subsidies, which enable them to prosecute the work with great vigor.

V. The management has been exceedingly prudent and frugal.

VI. There is already a large and growing settlement on the completed and graded line.

VII. The lands promise to be of immense value, 37,038 acres having been already sold.

VIII. Both principal and interest are explicitly made payable in gold coin.

IX. Both the aggregate amount of issue and their standing in Europe will insure for them continued activity and a high rank among standard securities.

At this time they yield nearly

NINE PER CENT. UPON THE INVESTMENT.

Holders of Government Securities have an opportunity of exchanging them for Central Pacific Bonds, bearing an equal rate of interest, with the principal absolutely secured, and of realizing a profit of from ten to fifteen per cent. in addition.

Orders sent with the funds through responsible Banks or Express Companies will receive prompt attention. Bonds sent by return Express, to any address in the United States, at our cost. Information, Descriptive Pamphlets, Maps, &c., furnished on application at the office of the Railroad Company,

The Lamb Knitting Machine

Is designed especially for Family Use,

And for the easiness of construction and superiority of execution is not excelled by any other machine. It has been awarded the

HIGHEST PREMIUM AT THE PARIS EXPOSITION.

Also, State and County Fairs throughout the United States.

It knits Hosiery of all kinds, forming the heel and narrowing the toe. It sets up its own work, widens and narrows by varying the number of loops the same as in hand knitting. The loops being the same as made by hand, the fabric is equally durable.

It knits the fabric either tubular or flat, staple, double, or ribbed, and in any desired shape, thereby including every variety of Staple and Fancy Knit Goods.

The extent and variety of its manufactures are only limited by the ingenuity of the person who feeds it; while a child can operate it on plain knitting.

W. & P. BRYER,

No. 15 Broad Street,

MAKE the following propositions: They will put up of the market price one hundred pound packages of English Breakfast, Oolong and Hyson Teas, such as they are now selling, for one dollar per pound, and deliver the same on the 25th of September at the residence of purchasers. In every fourth pound will be enclosed a one dollar greenback, so that the purchaser will pay nothing. By this arrangement a profit will pay above the regular price, so that there is no possible loss. As will be seen, the tea is sold on the average at a deduction of ten per cent., or at our

WHOLESALE PRICE,

which is simply what is proposed to be done.

We are only enabled to do this by our connection with an extensive wholesale tea-store in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned in exchange for any other kind or quality in the store. The whole thing is to be done on perfectly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of packages are not sold at the day of delivery the proportionate number will be disposed of according to the above terms.

There are not 5 cheap teas provided for the purpose, but a **regular standard article.** Other grades may hereafter be sold in the same way. Now is the time to send in your orders.
